

We work with our clients to attempt to anticipate and plan for both the positives and the negatives of retirement. We can help you take advantage of the opportunities and deal with the challenges. Good retirement planning leads to a successful and satisfying retirement life.

Retirement planning is the process that helps you prepare for one of life's biggest changes. We help you answer the questions you need to ask yourself: "What's important to me?", "What do I want?" and "What do I need." We work with you to gather your information, set goals and then build an action plan required to reach those goals. We continue to help you by tracking your progress and determine if changes need to be made.

At Stapfer Financial Planning Group Inc. we take the time to explain your various options and offer the products and services which will help you maintain and protect your lifestyle in retirement.
